MISSION, VISION, AND PURPOSE

Summary: Classical Christian Education

Classical Christian education intends to cultivate virtue and wisdom by nourishing the soul with truth, goodness, and beauty according to God's revelation via the classical liberal arts. Its purpose consists of training the soul (biblically: the seat of the mind, will, and emotions) to love that which is worth loving.

Our Mission

Geneva Classical Academy seeks to cultivate wisdom and virtue in the souls of our students in order that they may love what is true, good, and beautiful through a growing academic community focused on Christ.

MISSION, VISION, AND PURPOSE

Our Vision

Geneva Classical Academy is an educational community that exists to assist families in fulfilling their Biblical obligation to education their children by providing Christian and classical education that equips them to live purposefully in the service of God and man.

Our Purpose

Geneva Classical Academy's purpose is to glorify God and to enjoy him forever. Since its founding in 1996, Geneva Classical Academy has sought to be an instrument that God may use to bring about educational and cultural restoration to society. With an emphasis on the truth of God's revelation and the tradition of the Great Thoughts of Western civilization, we have set as our goal cultivating an understanding of the transcendentals (truth, goodness, and beauty) in the souls of our students in order that they may love that which is worth loving.

As an institution, Geneva Classical Academy seeks to recover, to amplify, and to expand these tools of learning by researching and implementing the traditional, classical model of education. Yet this is not enough since we acknowledge God's revelation in holy Scripture and his salvation in Jesus Christ. Therefore, we propose to do this work within a scriptural and Reformed framework. As a result, Geneva Classical Academy has developed the following:

- We are committed to the belief that God is a personal God who is present, active, and sovereign in all aspects of creation. In this respect, the Person of God is evident in every area of life. In this respect, the Person and Work of Christ influence every area of life.
- We are committed to the goal that all subjects, from literature to science and from mathematics to physical education, are taught from a distinctively Christian perspective. In this respect, all subjects integrate as dimensions of the whole.
- We are committed to the progress of the classroom, so that our teachers may be trained to communicate these truths and so that our students may be trained to seek unity, life, and meaning in all aspects of reality. In this respect, the complete person matures.
- We are committed in all activities --- academic and nonacademic --- to reflect God's character in life. In this respect, our faculty and students spur one another on to love and good deeds.
